

Number Manager mobile app

The Number Manager mobile app runs alongside the Number Manager online portal and operates through any iPhone or Android device. Simply download 'Number Manager' (free) and log in with your normal account number, user name and password.

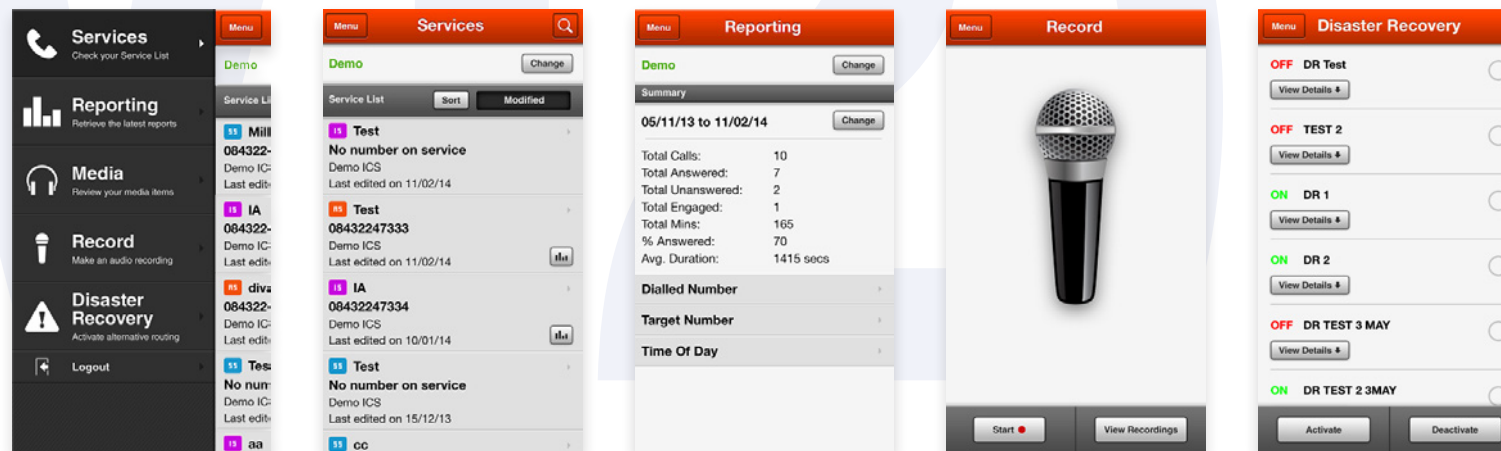

The app ensures you can still have business continuity even when you don't have access to the online portal. This app is perfect for remote workers who can make changes to existing services whilst on the go.

The main features of the app are:

- Change terminating numbers on existing services
- Reporting and statistical information
- Media (voicemail/call recording audios)
- Recording audios
- Activating/deactivating Disaster Recovery

Download the free Number Manager from Apple's App Store or Google's Play Store on your mobile

The app has been designed to be simple and straightforward to operate
